

SIXTH REPORT
OF THE
MANAGERS OF THE INDIANA
REFORMATORY INSTITUTION

FOR
WOMEN AND GIRLS,

FOR TEN MONTHS

ENDING OCTOBER 31, 1877.

TO THE GOVERNOR.

INDIANAPOLIS:
INDIANAPOLIS JOURNAL COMPANY, STATE PRINTERS,
1878.

SIXTH REPORT

OF THE

MANAGERS OF THE INDIANA

REFORMATORY INSTITUTION

STATE OF INDIANA,
EXECUTIVE DEPARTMENT, November 27, 1877.

Received and referred to the Auditor of State for verification.

Returned by the Auditor of State, with his certificate appended to the "Account with the State Treasury," December 1, 1877.

Examined by the Governor and transmitted to the Secretary of State to be filed and preserved in his office, and published as may be ordered by the Commissioners of the Public Printing and Binding.

SAMUEL R. DOWNEY,
Secretary, Governor's Office.

Filed in my office December 20, 1877.

JOHN E. NEFF,
Secretary of State.

ENDING OCTOBER 31, 1877

TO THE GOVERNOR

INDIAN REFORMATORY

JAMES SMITH.

PHYSICIAN.

THEOPHILUS PARVIN, M. D.

MANAGERS' REPORT.

OFFICE OF THE INDIANA
REFORMATORY INSTITUTION FOR WOMEN AND GIRLS,
INDIANAPOLIS, IND., October 31, 1877.

To His Excellency, JAMES D. WILLIAMS,

Governor of Indiana:

SIR: The Board of Managers of this Institution have the honor herewith to transmit to you this, their sixth annual report, for the ten months ending October 31, 1877.

On the twelfth of March we entered upon the duties assigned us by an act of our last Legislature, approved by you March 3, 1877, by which act the general supervision and government of this Institution was vested in a Board of Managers consisting of Mrs. Eliza C. Hendricks, Mrs. Rhoda M. Coffin and Mrs. Emily A. Roache, and by the said act and approval they, the above named, were duly appointed to that charge to serve the time assigned to each, respectively, by that act.

This being the only governmental prison known—either in the United States or Europe, under the entire management of women—we have felt the responsibility of our position and have sought to so discharge the trust assigned to us as to ensure success to the institution and to be an honor to our State, which has thus taken the advance step of assigning to woman the privilege of caring for, elevating and reforming her own sex. At our first meeting the board was organized by the appointment of Mrs. Rhoda M. Coffin as President.

With your kind interest and valuable assistance we rejoice to be able to report that the institution is in a good condition.

Owing to the appropriation made by our last Legislature being so limited, we have been obliged to dispose of many more of the

girls in the reformatory than would have been best under other circumstances. Those who are under age are discharged on "Ticket-of-Leave," subject to our recall when thought best.

The Superintendent seeks to keep up a correspondence with the girls who are discharged as far as practicable, by which it appears many of them are leading useful and industrious lives. In most cases the years of evil habits and associations have so obliterated the finer sensibilities of womanhood, that it will require long continued, prayerful labor to remould the character; but by a thorough system of training—throwing around them those influences which are of an elevating and beneficial character—we hope to send them forth, with some strength at least, to resist the temptations to which this class is exposed. To effect this we consider is the prime object of this institution. The results already accomplished are, we are fully aware, difficult to estimate, and can not be told in words or given in figures.

All the girls attend school half of each day, alternately, by divisions, so as to enable the officers to carry on the various objects of industry. The school has been well conducted, and much credit is due the faithful teacher who has from the first opening of the institution, had charge of it. It has been our object to give to each in this department a good common school education. A few have shown marked aptitude in learning, and some have been employed in the primary department as teachers, with good success, enabling us to dispense with the assistant teacher.

PENAL DEPARTMENT.

The past year has been one of remarkable health, good order and prosperity. The discipline is mild but firm, and by the thorough system which has been established, and the almost ceaseless vigilance of our valued Superintendent, and her faithful and effi-

cient assistant, this department has been placed on a standard which will compare favorably with any other prison in the civilized world. We have no faith in the permanency of a reformation that is not founded on a Christian basis—a thorough change of heart. But closely connected with the efforts to effect this is the wholesome discipline which labor always brings. Idleness is one of the most fruitful sources of crime, and laziness its twin sister. These are two mighty evils with which we have to contend. Constant employment is therefore an absolute necessity, that they may be taught the means of earning an honest livelihood. We have found great difficulty in procuring remunerative employment owing to the low price of labor. From information received a number of those who have left are making good and reliable house servants.

An evening school is taught by one of the older girls of the reformatory, and is an interesting feature of the work, about forty avail themselves of this privilege.

Believing that great benefit would be derived from having a sufficient number of cows to supply the needs of the household with milk, we have purchased accordingly; and being limited in grounds suitable, have caused an inexpensive fence to be placed across the north part of the lawn. The result has been all that we anticipated. There has been a marked difference in the health of the younger girls produced by the free use of the milk, besides furnishing useful employment for the older girls and increasing their efficiency as servants. A portion of the lawn has also been appropriated for a garden, which has been of practical use in furnishing healthful exercise for the girls and food for the table. We have sought by these means in some measure to contribute to the support of the institution and lessen the heavy expense which this institution must always be upon the State.

The drainage not having been completed so as to connect with the sewerage of the city, deleterious influences have arisen to those by whom we are surrounded, causing much complaint, and that justly. But having no funds set apart for improvements, and the appropriation for our current expenses being so excessively limited that with the strictest economy we fear we shall not be able to close the coming year without indebtedness, we have not dared to make the needed improvements. We have, however, remedied the difficulty somewhat, temporarily, but at considerable expense, by having the cesspools and drainage cleansed.

A liberal donation of trees and shrubbery, presented by S. A.

Fletcher, Jr., (President of the former board) has been thankfully received, and adds much to the appearance of the grounds. These were all planted by our girls, and the larger part are growing nicely. We acknowledge with gratitude this kind token of interest.

It is with regret that we are unable to discharge some outstanding debts for improvements, incurred by the former board, and for which no provision is made.

We congratulate ourselves upon having secured the services of honest, efficient officers, all of whom we believe have sought to perform their services faithfully. The utmost harmony has prevailed, we believe, in every department.

Number of convicts at last report.....	31
Number of convicts received during the year.....	32
Number of convicts discharged.....	13
Number of convicts escaped.....	None.
Number of convicts deceased.....	1
Number of convicts remaining to this date.....	52
Total received since the opening.....	96

Accompanying this report, and as a part of the same, we submit the Superintendent's report and tables, together with the report of the Physician, Dr. Theophilus Parvin, to which we refer you for a detailed account of our receipts and expenditures.

By the Superintendent's tables it will be seen that our entire resources for the ten months were \$22,582.94. Of this \$10,887.62 had been expended by the former board prior to April 1, 1877, leaving us \$11,695.32, for the seven months from April 1, 1877, to October 31, 1877, or \$1,813.61 as the proportion for each month. Our disbursements for the ten months were \$22,582.94, which being the amount to our credit, exactly closed our account with the State treasury, leaving no balance. The amount appropriated by the last Legislature for current expenses for the fiscal year, beginning November 1, 1877, and closing October 31, 1878, was \$21,500, or at the rate of \$1,791.66 per month. As this is less than we have been able to live upon the last seven months, with an increasing family we feel doubtful of our ability to bring our expenses within the limits of the appropriation.

Respectfully submitted,
 RHODA M. COFFIN,
 ELIZA C. HENDRICKS,
 EMILY A. ROACHE,
 Board of Managers.

SUPERINTENDENT'S REPORT.

To the Board of Managers:

LADIES—After the appropriations were made by the last Legislature, fears were entertained that ours was not adequate to the size of the family.

As suggested by the State Officers, we reduced (in the Reformatory Department) by finding homes and sending to friends fifty of the older girls; but the increase in the penal department makes the family just the same in number this year as at the date of our last report.

Accounts from the girls sent out are very gratifying, so that we feel how impossible it is to estimate the value of an institution which lends a helping hand to rescue the girl on the verge of ruin, surrounded with wiles beyond the power of pen to portray. Our great aim has been to teach them the true nobility of work, and that an outward display does not constitute womanhood. These false ideas too often make them an easy prey, not only to designing men, but to base women, who luxuriate on the price of the deceived. Nearly all attend school, and many are making rapid progress. Those preparing to leave the institution, having been in the school, are devoting their time to household duties; they are taught washing and ironing as a specialty, cooking and those household duties which will fit them to enter life. The care of the garden and cows has proved a very healthful and profitable employment, marked by the improved appearance of the girls.

We are aware that some branch of manufacture (had we the facilities) would be more remunerative, but the practical result, in after life, is doubtful, as most manufactories are carried on in large cities, the very place we avoid in seeking homes.

In pursuing the good work we can adopt the language of a member of the former Board:

"Many instances of hopeful reformation might be cited, where those who entered the institution almost totally depraved have left it to be-

come useful and worthy members of society. In short, a most important work is being accomplished by this Reformatory, both in the salutary discipline of those confined for crime and the reclamation of young girls from the paths of sin—a work which will tell on the generations to come, and be a credit to the name of Indiana, and tend to place her in the foremost rank among her sister States.”

PENAL DEPARTMENT.

The discipline in this department, under the care of the Assistant Superintendent, is unsurpassed, kindness being invariably found to be the important lever in touching the hardened heart, upon the change of which depends the great question whether they return to society better or worse for their prison life. Emergencies do arise which demand prompt, firm and decisive action, but no outbreak or runaway having occurred, we are encouraged to pursue the plan for which the institution was designed, “Reformation of character.”

Regular employment has been furnished, but we regret to find our improved system of laundry work not so remunerative to the State, though helpful in procuring good homes and wages to those who understand it. Knitting socks for the Southern Prison has been very helpful in employing those unfitted for hard labor, but with our increasing family it is becoming a grave question how to furnish profitable hand-labor, and no reformation can be effected without it.

Our Sabbath services are regarded as a great benefaction. The kindness of Mr. Wilson Morrow and his co-laborers in so faithfully attending and conducting them, is truly gratifying. Numerous letters from those who have left us say “God bless Mr. Morrow; it was through his preaching I found the Savior.”

Sickness among the officers has made some changes necessary, but in every department they have labored to discharge the arduous duties devolving upon them.

The calls upon our faithful physician have been promptly attended to, and we highly appreciate his services. We succeeded in securing the services of an efficient secretary.

Our library greatly needs replenishing, as no addition has been made for two years. It is an acknowledged fact that good reading is invaluable, not only in remolding the character, but as a discipline to the mind.

Accept my warmest thanks for the confidence reposed in me, with gratitude to our heavenly father for his watchful care over us.

Herewith I submit the classification of expenses for the ten months beginning December 31, 1876, and ending October 31, 1877, together with a statement of resources and warrants drawn by me upon the allowances made by you; the itemized statement of the monthly allowances; statement of the receipts and expenditures of the working fund; statement of accounts rendered the counties on account of clothing; statement of cash balance on hand; tables of penal and reformatory departments; statistics, etc.

All of which is respectfully submitted.

SARAH J. SMITH,
Superintendent.

Indianapolis, October 31, 1877.

SUPERINTENDENT'S TABLES.

PENAL DEPARTMENT.

Counties from which Prisoners are sent.

Clark, one; Carroll, one; Cass, two; Bartholomew, two; Daviess, one; Gibson, one; Huntington, two; Dubois, one; Howard, one; Jackson, two; Jennings, one; Johnson, one; LaPorte, one; Marion, seventeen; Parke, one; Posey, one; Randolph, three; Spencer, one; Tipton, two; Vanderburg, four; Vigo, four; Washington, one; Warrick, one. Total, fifty-two.

ANNA DUNLAP,
Secretary.

INDIANAPOLIS, October 31, 1877.

STATEMENT

Of the amount due the State of Indiana from the several Counties from which girls have been committed to the Reformatory Department on account of the expense of their clothing and subsistence for the six months from December 1, 1876, to May 31, 1877.

PHYSICIAN'S REPORT.

TO THE BOARD OF MANAGERS:

LADIES—During the past year of the Reformatory there has been quite as much sickness as in any one of the three previous years. Very little of this sickness was of a serious character. There have been two deaths in the year, one in the Penal and one in the Reformatory Department. Susetta Christopher, a convict from Lawrence county, died on the 7th of February, her death in part consequent upon injuries received before her admission. Rachel Mackey, a colored girl about twelve years of age, died last May, after several months' illness, from pulmonary consumption.

I am greatly indebted to my friend, Dr. Lyons, of this city, for important operations skilfully and successfully performed upon the eyes of two of the inmates, who otherwise might have lost their sight.

It is not necessary for me to say a word in commendation of the faithfulness with which the sick have been cared for by the resident officers of the Institution, nor to testify to the uniformly pleasant relations between those officers and myself during my four years of service.

Yours, respectfully,

THEOPHILUS PARVIN,

Physician to the Ind. Ref. Inst. for Women and Girls.

SEVENTH REPORT
OF THE
MANAGERS OF THE INDIANA
REFORMATORY INSTITUTION

FOR
WOMEN AND GIRLS,

FOR THE YEAR
ENDING OCTOBER 31, 1878.

TO THE GOVERNOR.

INDIANAPOLIS:
INDIANAPOLIS JOURNAL COMPANY, STATE PRINTERS.
1878.

THE STATE OF INDIANA, }
EXECUTIVE DEPARTMENT. }

Received November 19, 1878, and referred to the Auditor of State for a verification of the financial statements.

Returned certified as correct.

Examined by the Governor, and transmitted to the Secretary of State to be filed and preserved in his office, and published as may be ordered by the Commissioners of the Public Printing.

SAMUEL R. DOWNEY,
Secretary, Governor's Office.

Filed in my office November 22, 1878.

JOHN E. NEFF,
Secretary of State.

THOMAS BARNETT, Watchman.

MANAGERS' REPORT.

OFFICE OF THE INDIANA
REFORMATORY INSTITUTION FOR WOMEN AND GIRLS,
INDIANAPOLIS, IND., October 31, 1878.

To His Excellency, JAMES D. WILLIAMS,
Governor of Indiana:

Sir: The Board of Managers of the Indiana Reformatory Institution for Women and Girls beg leave to present their Seventh Annual Report, for the year ending October 31, 1878:

PENAL DEPARTMENT.

Number of convicts at last report, October 31, 1877.....	52
Number of convicts received during the past year.....	22
	74
Number of convicts discharged.....	25
Number of convicts pardoned.....	3
Number of convicts deceased	1
Number of convicts escaped	0
	29
Number of convicts remaining October 31, 1878.....	45

GIRLS' REFORMATORY.

Number of girls at last report, October 31, 1877.....	137
Number of girls received during the year.....	43
Number of girls discharged during the year.....	28
Number of girls deceased during the year.....	1
Number of girls released on ticket-of-leave	7
Number of girls returned from ticket-of-leave	4
Number of girls escaped during the year	8
Number of girls re-captured during the year.....	7

Number of girls remaining October 31, 1878.....	149
Born in the Penal Department, infants.....	4
Died in the Penal Department, infants	2
Prisoner's child cared for.....	1

We are bound to express our gratitude to a kind Heavenly Father, whose blessing has so signally rested upon the Institution, clothing the officers with grace, wisdom and physical strength, for the performance of the duties assigned unto them.

To your Excellency and the other members of the Board of Audit, we would tender our thanks. By your uninterrupted confidence and sympathy, we have been greatly encouraged and strengthened, and your valuable council so cheerfully given, in times of difficulty and perplexity, has proved invaluable to us. Many formidable difficulties encountered in our experience, have, in a measure, disappeared as we have gained a practical knowledge of the diversified work to be accomplished. By a careful study of the peculiarities of each individual, their previous surroundings, early education and history, much of the difficulty incident to the control and discipline has been overcome.

By the strictest economy, and the low prices which have prevailed, we have succeeded in meeting our expenses.

We have made such repairs only, on house, furniture, and machinery as were absolutely indispensable, and now close our fiscal year without indebtedness.

On a debt which was remaining from the improvements made by the former board, and for which an appropriation had been made by the Legislature of 1874-1875, (but which appears to have not been sufficient to meet the expenses of said Board,) we have paid during the past two years \$434.48. As there were no funds under our control with which to meet this, and as the appropriation made for the expenses of the Institution was very limited, we dared not encroach upon that further than to pay all that could be construed to have a just claim upon us, leaving a balance of \$1,233.09 unprovided for.

It has been cause of regret that no provision was made to meet this emergency, as it has caused suffering and loss to the contractors. The indebtedness still remaining of the former Board for improvements, etc., is as follows:

IMPROVEMENT BILLS.

1. Iron Bridge, Roof and Bolt Co., for iron fence.....	\$873 59
2. Edward C. Harris, smoke stack.....	100 00
3. C. A. Hubbard, City Civil Engineer.....	54 00
	\$1,027 59
Interest at 10 per cent. per annum for two years on above,	205 50
Total.....	\$1,233 09

Whilst we have felt that it was obligatory upon us, to practice the most rigid economy, in order to prevent an indebtedness unauthorized by the Legislature; yet we believe the Institution could have been more economically managed, the work better done, and the labor more remunerative, had the funds at our command been such as to have warranted more liberal measures.

Upon careful examination it was ascertained that not only would we be prevented from increasing our family, but would be compelled to diminish, by discharging the girls more rapidly than was good for them or for the best interest of the State, owing to the want of means to defray the expense, and also the lack of room.

This Institution is yet in its infancy, and the number of those who are fit subjects to be received is increasing, and will continue to do so as our State increases in population and cities multiply; hence, the importance of increased liberality in the provision for its maintenance. We would press upon your consideration the need of an addition to the reformatory side of the building, by the completion of the wing—as contemplated in the original plan. The Girls' Reformatory is full, and it is very desirable that it should be so enlarged as to admit of a classification of the inmates—which, as yet, has not been effected for the want of room. A regular system of gradation can not be established with all of the apartments so crowded.

The knowledge of crime, and degree of degradation revealed in some of the younger children, when received, is alarming, and is a confirmation of the need of assigning girls of a tender age, who have become familiar with vice, to a close supervision and kind motherly care, connected with a wise classification.

Our Superintendent, during the summer, visited a large number of the women and girls who have passed through the Reformatory; by this means, and a correspondence which is maintained with those

who are discharged, we are able to report at present, as doing well and filling useful places in society—in the Girls' Reformatory Department, about 78 per cent.; in the Penal Department, about 82 per cent. We are aware that the test has not been a long one with some of these; but when we take into consideration the fact that the period of greatest danger is soon after they leave the warm Christian home which the State has provided, and go out into the cold, bleak, unforgiving world, to meet the temptations to evil by which they are immediately surrounded, we are greatly cheered.

Our records show the condition of all those who have been discharged or are out on ticket-of-leave; how many have remained steadfast; how many have fallen; and the above is the result, as nearly as we can reach it.

We have no hope of making this Institution anything like self-supporting; it as an impossibility, as will be hereafter shown. Our aim is to reform, and lay a good foundation upon which to build a character when they are liberated; hence, the expenditure will always seem to be large, for the results produced, in dollars and cents; but when compared with the benefit derived from the reformation of that class of poor unfortunates, we believe that it will prove to the State a profitable investment, by removing from its midst a moral cancer which, if permitted to remain, to increase and grow in power and influence, would eventually destroy the life and vigor of our noble State.

EDUCATION.

The educational system adopted by our predecessors has been continued, and, we think, with good results. The minds of the girls, as well as the women, are, as a class, uncultivated. They have never been taught or trained to think on any subject of usefulness or profit, or to reason from cause to effect—but from early infancy have been accustomed to gratify every passion and taste without restraint. Born, as many of them have been, in the midst of poverty and crime, they have inherited tendencies from their parents, and, in some cases, a legacy of disease has been handed down from generation to generation—increasing, with accelerated force, the degeneracy, until the powers have become so weakened by the indulgence of all the low, sensual appetites that there seems to be but little to work upon. They are generally easily wrought upon either by love or fear, but appear to have no power of self-restraint or governing their will; hence, the great difficulty of effect-

ing a reformation of character which shall be permanent. The school is invaluable in cultivating the mind—giving it food for nourishment, awakening new ideas and new aspirations; and with the thorough teaching and discipline through which they must pass in this, and the variety of other means which have been employed, we have been able to make some advance in laying a foundation upon which to build a character of self-respect and self-government. We do not aim to give the pupils in the Reform School a finished education, but to form a proper basis, to cultivate a taste in the right direction, putting them in the way to advance and develop in the future to higher grades of cultivation. The school has been a marked success; the instruction is thorough and systematic, and will compare favorably with schools of similar grade in the city. Many of the girls have bright minds, developing talents quite equal to those outside, and manifest a commendable interest in their studies; all of them have an opportunity of obtaining a good common-school education. Before their time expires they are withdrawn from the school, and are carefully instructed in the various duties of housekeeping. Thus, they are discharged with means of procuring an honest livelihood. In the Penal Department the school is held in the evening for five months in the year, four evenings in the week, and is taught by the Assistant Teacher of the Reformatory (one of the older girls), under the supervision of the Principal Teacher.

Many of the convicts upon entering prison can neither read nor write. Opportunity is given to all to avail themselves of the privileges of the school; their progress and interest have been satisfactory; thirty-three (33) can now read. For further details we refer you to the Report of the teacher, which we append.

We have been obliged to employ some assistance for our faithful teacher, who has been with the Institution from its commencement, but whose health has been insufficient for the entire instruction. This deficiency has been supplied by some of the older girls, who have developed quite a talent for teaching and aptness to govern.

LABOR.

By far the larger portion of the girls who are received in the Reformatory department are under fourteen years of age; have never been trained to work, are unreliable and not to be trusted, and have been accustomed to idleness and vice, and when received require the closest supervision and care in order to counteract the

evil tendencies which hitherto have mastered them, and it is impossible to make their labor remunerative. Each girl is taken through a course of instruction in washing, ironing, cooking, house cleaning, chamber work, knitting and sewing. They are required to do all the work in this department. Laundry work for the public is carried on to some extent, but owing to their unskilled labor and the cost of supervision, we can not as yet pay expenses.

A laundry teacher is employed, and some of the girls have become quite proficient, and when discharged find profitable employment. Were we to look at the pecuniary profit, only, which results from the labor accomplished, we should be disheartened; but there is a far more hopeful side of the picture, and this we present for your consideration, viz: The large percentage of those who go away reformed, with new thoughts and new purposes, and who are remaining steadfast to the principles instilled in them here. These have gone forth with disciplined minds, habits of industry and thrift, and many of them are filling useful and honorable positions. Quite a number of them, as will be seen by the Superintendent's report, are married, and some of these are furnishing homes for others.

The conduct of the Penal Department is attended with far less difficulty, as regards labor; they are women with more judgment and their physical powers are developed; their reason may be appealed to with more hope of success; they are willing to labor, but for the most part they are to be taught, and the labor is unskilled and consequently in a measure unremunerative. The question of profitable employment has been repeatedly before us, but as yet the problem is unsolved.

We have no Working Fund; and by an act of the last legislature we are prohibited the use "of any of the profits, earnings, or receipts," and with the appropriation allotted us, with an increasing family, it would have been impossible to have carried on any kind of labor had not you, in concert with the other members of the "Board of Audit," kindly come to our relief and authorized the use of the "profits, earnings, and receipts" as a Working Fund. By this means the laundry has been sustained, and other work furnished for the convicts—such as knitting, general sewing, the manufacture of overalls, etc.; for the details of these we refer you to the Superintendent's Report. We would earnestly urge the repeal of the law referred to, as it is not practical. Labor lies at the very foundation of reformation; hence, the need of means being provided for the conduct of labor.

RELIGIOUS INSTRUCTION.

We have strong faith in the renovation of the physical nature, and believe that labor is an invaluable adjunct—that the body must be kept active and engaged, or otherwise it becomes diseased and enervated—and that the intellect must be cultivated, and the reasoning faculties of the mind developed and furnished with suitable food, or else it feeds upon the diet of vulgarity and licentiousness, and completely destroys its power for usefulness. But, whilst we recognize the value of these in reforming the character, we rest our hope and confidence upon the religion of Jesus Christ as the *sure* foundation upon which to build the structure, and earnest efforts are being continually made to bring them to a knowledge of the way of salvation, through faith in Him as the Saviour of the world. Many of them have never been taught the way of life; but when they are brought under the hallowed influence of a Christian example, and hear the simple story of the cross, they "hear the word gladly," and accept of Him as their Saviour and friend. But they have so long been accustomed to evil influences, and the power of habit is so strong, that much patience and prayerful perseverance is requisite in the officers to instruct and mould a character which shall be able to stand the trials and temptations of life. Much success has crowned the efforts of our noble band of officers, who conscientiously and faithfully labor night and day for the good of those under their care. Our thanks are due to Mr. Morrow, Dr. Wood, and others, who have had charge of the religious services on Sabbath afternoons.

DRAINAGE AND SEWERAGE.

Soon after taking possession of the Institution, it became evident to the present Board that there was a great defect in the system of sewerage and drainage. Much labor and means had been bestowed upon it by the previous Board, but the difficulty had not been overcome as they had hoped. The sewerage which was constructed by them, so as to "convey the accumulated water and refuse matter entirely beyond the Reformatory Grounds into Crooked Run," has proved, at least, of doubtful utility, and has given great dissatisfaction to our neighbors, and has been the means of involving us in a serious litigation which, we fear, will bring a heavy cost upon the State. Complaint was made by the Commander in charge of the U. S. Arsenal before the U. S. Court against us, and we were sum-

moned to appear and answer to the charge of a "Nuisance." By your advice, counsel was employed to assist the Attorney General in the defense. The case is still pending in the U. S. Court.

The Board, however, has not been without effort; everything that could be devised has been done to prevent deleterious effects from arising, and to remedy the defect as far as lay in our power. The sewer pipes have been flooded with water, according to the design adopted; the cesspools and drains have been frequently cleansed and purified, and disinfectants freely used—and even the cesspool, which you so kindly caused to be made (in addition) did not meet the case.

The construction of a perfect system of sewerage, leading from the Reformatory Building and connecting with the sewerage of the city, appears to be an absolute necessity. As we are outside the city limits, this will involve a heavy expense; and we are unprovided with means to meet it, having no funds at our command but the appropriation made for our living expenses, and that provision so *small* that we have been compelled to practice the most rigid economy to avoid an indebtedness. We have, therefore, thought best to defer the construction of such a system of sewerage until authorized by the legislature to make the needed expenditure.

We have, however, caused a careful survey and estimate to be made, as to the best line of connection and probable cost of constructing such a sewer, and believe that the best line can be made connecting with Market street, and the cost is estimated at about \$4,000. We trust, with such a connection, satisfaction would be given to the neighborhood, and the convenience and comfort of the family be promoted.

WATER.

Notwithstanding much time, labor and money has been expended by our predecessors, in their efforts to secure the best possible arrangements in regard to water, they are still unsatisfactory and incomplete; the supply is insufficient and *some* of the arrangements which they fondly hoped would have been a great success, have proved otherwise. In such an Institution an abundance of water is required for the promotion of cleanliness, as well as for cooking, washing, etc. Much water is needed in the two laundries, and that if possible, should be rain water; this we can not have under the present arrangement, as the cisterns have been so constructed that the water from the hydrant passes into the same reservoir as the

water from the various roofs. In order to obviate this difficulty, and keep on hand an abundant supply in case of fire, we ask the construction of two new fire cisterns. The danger of fire is very great; working as we do, with the lowest stratum of society, many of these are the most unprincipled characters; several times since the opening of the Reformatory, has an attempt been made to fire the building, but happily the flames have been extinguished without doing much damage. We are thankful to report that during our term of service no such effort has been made, and yet we live in constant dread lest fire should break out, and if it should, in the center of the building, in the night, the greater part of our family we fear would be destroyed. To provide as far as we had the power against such a calamity, we have purchased two additional fire extinguishers, making now four in all; we have also furnished 200 feet of one inch hose, which is kept attached to the pipes in the house, and in connection with the hydrant outside we have 200 feet of one and one half inch hose. In addition to the above provisions we have purchased two fire escape ladders, but owing to our windows being barred, the use of these is limited; we believe that an iron spiral staircase should be built, reaching from the bottom to the third floor, in the west end of the building, to facilitate the means of escape from fire.

INSURANCE.

We would call your attention to the wisdom and propriety of an insurance on the building. We think there are special reasons why this building should be insured, viz: The distance from the fire department; the officers are all women, and so few able-bodied men within reach, it may readily be perceived that the danger of destruction of the property by fire is greater than in some other Institutions. This provision would enable us to rebuild, in case the property should be destroyed during the interim of the Legislature.

LIBRARY.

The Reformatory is almost destitute of a library. Mr. S. A. Fletcher upon retiring from the Board, kindly donated the sum of \$260, which was expended in books which were thought to be appropriate. There have been a few volumes purchased since, but they have been in constant use, and such as remain are very much worn, so that we are at present almost destitute. We would ask an appropriation of \$500 as the foundation for a library.

LAUNDRY.

Greater facilities for washing are an absolute necessity; the laundries at present are situated in the basement in both departments. Notwithstanding every precautionary measure is used to prevent any deleterious effects, we fear it is not healthful to our family. Much care has been taken with the drainage, and it, perhaps, is as complete as it can be made; and yet the amount of washing which is done, and the constant steam from the boiling soap-suds, etc., which is ascending, causes an unpleasant effluvia to be constantly permeating the whole building, whilst the basement is kept damp. Our facilities for washing are so limited that we can not have one-half of the number employed in the washing at one time who should be; and as washing is by far the most profitable business which is within our reach, we would ask that an appropriation be made for the erection of a laundry outside of the present building, but so connected therewith as to make it available for both departments. The removal of the laundries from the basement would give us two good work-rooms, which are greatly needed.

The collections made from counties, by the Treasurer of State, on account of this Institution during the past year, amount to \$9,520.37. As required by Sec. 31, of the Act of May 13, 1869, the Board has estimated the "actual expense per annum of clothing and subsisting an infant committed to the Reformatory Department of the Institution," and has fixed the amount thereof at \$146.

We believe the Institution, in all its departments, has been economically and successfully conducted. The Superintendent and all of the other officers have been selected with reference to their fitness for their work. No change has occurred in the constitution of the Board. Stated meetings have been held on the first Monday of each month, in which the business requiring our attention has been carefully transacted. Special meetings have been held when necessary. A copy of the Reports made to the Board by our Superintendent, including reports from some of our subordinate officers, is appended.

We would respectfully ask that our Institution be incorporated in the list of other benevolent institutions, so that, if at any time the legislature should fail to make an appropriation, we would be provided for by the provision which was made by a former legislature for all the others, in Act approved May 12, 1869.

RECOMMENDATIONS.

We beg leave to ask an additional

Appropriation for the year upon which we are now entering of	\$3,500 00
The annual appropriation for the year of 1879-80.....	30,000 00
The annual appropriation for the year of 1880-81.....	30,000 00
For sewerage	4,000 00
For laundry building to be erected.....	6,000 00
For additional fire cistern.....	1,000 00
For fire-escape stairway, and fence cutting off pasture...	400 00
For the purchase of a library.....	500 00
For a contingent fund to bowlder the gutter along Randolph and Michigan streets, if it should be ordered, or any other contingency which may arise (with the privilege of using the fund in the interior as a working fund)	3,000 00
For an addition to the Reformatory on the west side.....	20,000 00
For the indebtedness of the former Board.....	1,233 09

Respectfully submitted,

RHODA M. COFFIN, President.
ELIZA C. HENDRICKS.
EMILY L. ROACHE.

SUPERINTENDENT'S REPORT.

To the Board of Managers:

LADIES—In looking over our field of labor, preparatory to presenting our Seventh Annual Report, we find so many interesting cases that the mention of a few may not prove inappropriate.

REFORMATORY DEPARTMENT.

A visit the past summer amongst the discharged and settled girls enables us to note the gratifying fact that 78 per cent. of those gone out, have become useful and orderly members of society. Of these—

No. 1.—“O. S.,” a low prostitute, taken out of jail—the Chief of Police remarking, “If anything can be done with her, you need never despair!” The change was so great that it was her delight to lead others to the Savior, who had saved her—the chief of sinners. A good home was provided for her; she united with the Methodist Church, remained a respected member until her marriage and removal to the West. Before leaving she called, and begged that her sister might be admitted and taught to work, saying: “It was not knowing how to work that made me bad; now I can get my own living, married or single.”

No. 2.—“M. S.,” an orphan, taken out of jail; became a bright Christian; went among her friends, was refused admission; wrote, “will still trust.” Married, and is an active member of a Christian church.

No. 3.—“M. S.,” had parents; committed for incorrigible conduct. Soon became a good girl, saying, “The very fact of mingling with so many motherless girls, when I have so little valued the counsel of the best of mother’s, brought me to beg for mercy and forgiveness.” After leaving the Institution entered school, graduated, has taught school, and is a useful woman.

No. 4.—“M. W.,” orphan; married clandestinely, at 14, a base man; her guardian rescued her, and placed her in the Institution for protection. She was educated for a teacher, sent to Iowa, taught school, married respectably, and returned to us for an orphan girl to whom she had promised to give a home. The latter has since married, and now sends for her sister.

No. 5.—“O. T.,” a girl of 12; mother and sisters prostitutes; boasted that she could only be kept until 18, then she would be more valuable for the business. Sent to Kansas, at 16, to an aunt, who writes: “O. is a dear, good girl, and bids fair to make a noble woman.”

No. 6.—“M. M.,” a talented girl of 14; lived in a low neighborhood, where profanity was popular; boasted of having burned the Bible. The love of Jesus worked wonderful change in her; the Bible became a treasure, and she delighted to tell of how the Lord had “plucked her as a brand from the burning.” She is living a useful and honorable life.

No. 7.—“N. P.,” a low girl, rather weak intellect; mother and grandmother bad—Judge H. making the remark when committing her, “It will be money thrown away; she can’t help being bad!” She writes, “I am married; have a good husband; have done three washings this week; have more furniture in my house to-day than my mother had when she had six children.”

No. 8.—“E. C.,” a well-educated girl of 16, led into sin by her mother; kept in affluence by a married man. Remained in the Institution one year; at the earnest request of friends released, and again urged into sin by her mother; was brought back; became changed; sent to Illinois, where she now is doing well, and says: “For a million dollars I would not be sin’s slave again.”

No. 9.—“I. B.,” aged 14; no mother; persuaded to run away from home under the promise of marriage; left ruined and penniless at the hotel. Went in search of work; was decoyed into a house of ill-fame; locked up two weeks, and soon sent to the hospital with a loathsome disease. At the request of the physician, christian ladies rescued her and had her placed in the Institution, where she proved herself gentle and obedient. The effect of disease unfitting her for hard work, she has been prepared to teach in her country home.

No. 10.—“S. C.,” parents living; led off by a married man at 14; her whereabouts not known for one year. All entreaties for

2 R. W. G.

her return were unavailing, and her father had her arrested and committed here. She soon professed Christianity, and became a valuable helper. Left at 17, and my recent visit to her happy home proves what has been done for her.

Failures are not mentioned, yet we have them—and sometimes where we least expected—but for our good results we thank God, take courage, and press on in the great and important work of saving the fallen from the path that surely leads to death.

Thirty girls are married, and with slight exception doing well. Only three deaths have occurred in this Department in the five years.

PENAL DEPARTMENT.

The success in the prison is without a parallel in prison history; a well organized family, performing their daily duties willingly and cheerfully; the most hardened soon submitting to the influences of christian kindness and forbearance, and at the expiration of their term are prepared to re-enter society as good servants, or the lost place in the family circle. Eighty-two per cent. of those discharged have been reformed, and are now useful members of society; no runaways, and only *one* recommittal in five years.

FINANCES.

By using rigid economy we close our fiscal year without indebtedness, except that left by the former Board, part of which has been paid, so far as our means would admit of, leaving some \$1,200 still unprovided for.

Our current expenses have been for the twelve months closing October 31, 1878.....	\$21,500 00
Of this, Improvements and Repairs were.....	706 45
Leaving as our net current living expense.....	20,793 55
Our average number of inmates per month.....	193
Penal Department.....	47½
Reform Department.....	145½
Hence, our net cost per week, being for the Institution (52 weeks).....	399 88
The cost per week, for each inmate, was.....	2 06

Looking to the natural, and to be expected increase in our family, we think \$30,000.00 would be required to keep up the buildings and repairs as needed. For details of year's expenditures I refer you to subjoined Secretary's Report.

Our labors though arduous, are not, and we fear never can be, remunerative; our women are of a class, in the main, broken down in health by their way of living, and our girls are but children, with seeds of disease in most of them—the fruits of parental vices and transgressions, rendering them physically weak. In order to obtain employment for them, we take all work at very low prices; thus our showing of net profits is very small. I submit, herewith, account in detail of receipts and disbursements "Working Fund."

Our laundry work could be made, possibly, a little more profitable, and very much more satisfactory to us, as well as our patrons, had we outside wash-houses.

Grateful thanks are tendered Mr. Wilson Morrow and his co-laborers for their deep interest in the inmates, manifested by regular attendance at our Sabbath services, as well as numerous entertainments for their help and encouragement.

It is with peculiar pleasure I mention the willingness and efficiency with which the officers have discharged their various and arduous duties, which have been so helpful in maintaining order and discipline in the Institution.

Dr. Parvin continues his prompt and valuable assistance.

To the ladies of the Board, who have been so assiduous with their counsel and sympathy, I tender my heartfelt thanks.

Respectfully submitted, together with statistics and officers' reports,

SARAH S. SMITH,
Superintendent.

SUPERINTENDENT'S TABLES.

PENAL DEPARTMENT.

Present number of inmates..... 45

Counties from which received.

Bartholomew, 2; Cass, 2; Dearborn, 1; Dubois, 1; Grant, 2; Howard, 1; Jennings, 2; Johnson, 2; Jackson, 2; Laporte, 1; Marion, 9; Martin, 1; Parke, 1; Pike, 1; Rush, 2; Spencer, 1; Tipton, 2; Vigo, 2; Vanderburg, 5; Wayne, 1; Washington, 1; U. S. Prisoners, 3. Total, 45.

Terms of Sentence.

For life, 6; for 14 years, 1; for 5 years, 2; for 3 years, 5; for 2 years, 22; for 1 year, 8; for 6 months, 1. Total, 45.

Number at last report, October 31, 1877.....	52
Number received during the year.....	22
Number discharged during the year.....	25
Number pardoned during the year.....	3
Number deceased during the year.....	1
Number escaped during the year.....	None.
Number remaining October 31, 1878.....	45

Total number received since opening.....	119

Respectfully submitted,

ANNA DUNLOP, Secretary.

November 1, 1878.

OFFICE OF AUDITOR OF STATE,

INDIANAPOLIS, November 19, 1878.

To HIS EXCELLENCY, The Governor of State:

I have examined the foregoing statement of disbursements of the Indiana Reformatory Institution, and find that the amounts compared with the original bills, receipts and vouchers, which have been placed on file in this office.

E. HENDERSON,
Auditor of State.

ASSISTANT SUPERINTENDENT'S REPORT.

To the Board of Managers:

LADIES:—I feel that our labor the past year has been attended with great success, there having been improvement, both moral and religious, to a very encouraging extent. With but few exceptions, those in my department have cheerfully complied with the rules of the Institution, and done all the work assigned them. I find that the system of marking for "daily conduct," and the loss of time attendant upon bad records, has the desired effect upon them. We have been successful in procuring homes for those going out who had no friends to go to. There have been three births; two of the infants deceased. We have also cared for one child belonging to a prisoner. Had one death among the inmates—Mary Horton, committed from Clay county.

In conclusion, I would thank the ladies for the interest they have always shown, and the support they have given me.

All of which is respectfully submitted.

ELMIRA L. JOHNSON.

LITERARY TEACHER'S REPORT.

The school has been kept up throughout the year with the exception of four weeks. All girls are required to attend except those who will shortly be discharged, and go out to learn more perfectly the domestic arts, and a few who were doing no good work in school.

The school is composed of four grades. The First and Second Reader class form No. 1, the Third Reader class forms No. 2, the Fourth Reader class forms No. 3, the History reader class forms No. 4. Nos. 1 and 2 have been taught by one of the older girls, who is fully competent, both in conduct and education.

All branches are taught that are used in grades corresponding in the city public schools, and I find that the capacity of our pupils, considering their former advantages, will compare favorably with those of the public schools. It is, I think, force of circumstances that brings most of them here, and all they need is a good common school education, hand in hand with the moral and religious training which they receive, to make good women, an honor to their sex and a comfort to friends.

Respectfully submitted,

MARTHA M. PRAY.

SEWING TEACHER'S REPORT.

To the Board of Managers:

LADIES:—The number of girls in the sewing room (Reformatory Department) ranges from ten to over twenty, alternating sets of girls morning and afternoon. When they begin in this work, they show a restless disposition, and would much rather participate in the more active duties incident to the Institution; but as they become accustomed to the restraint put upon them, they show considerable stability of character, and soon learn to take an interest in the work given them. There are several who deserve commendation in this respect.

Respectfully submitted,

ANNIE MATHER,

Sewing Teacher from Oct. 31, 1877, to Sept. 1, 1878.

HOUSEKEEPER'S REPORT.

To the Board of Managers:

LADIES:—In looking over the work of the past year, I see much to be thankful for. In the various departments of labor I find the girls generally willing, and many of them apt to learn, though the long-standing habits of idleness would seem, at first, to present an obstacle exceedingly difficult to surmount.

Taking into consideration the depths from which these have come that are gathered about us, remembering that well nigh every influence of their previous lives has been degrading, and that (as with many is the case) there are strong natural tendencies to evil, we cannot look to see within a few weeks or months thoroughly changed principles and lives. It is not an easy thing to lift up the fallen and build again such a character as will stand the test of life's battles. Yet, looking into the faces of some of these under our charge, noting from day to day the altered looks and manners, we cannot say "all has been for naught"—this labor of months and years, for there is surely promise of a future far removed from the record of the past. True, there are other lives upon whose pages we can not look so hopefully; but "with God all things are possible," and, prayerfully sowing the seed, we can trust Him for the harvest which, in after years, may come even from the seemingly barren soil. I would respectfully tender my sincere thanks to the Superintendent and my sister officers for their uniform kindness and sympathy, to the ladies of the Board for their courtesy, and, above all, to Him to whom all praise is due, and without whom we can do nothing.

Very respectfully,

ELIZABETH SHAW.

LAUNDRY TEACHER'S REPORT.

To the Board of Managers:

LADIES:—All girls in the Institution have been at work in this department through the year, an average of twenty at a time washing on all working days. The family, house and officers' work has been done, and, since the 25th of March last, one thousand five hundred and forty-three dozen pieces for patrons, with comparatively few complaints for bad work.

But few of the girls know anything about washing, and it requires time and a vast amount of patience to teach them and bring their work up to the standard. The majority like to work, and have made rapid progress. Quite a number do fine laundry work, equal to the best "custom work," who knew nothing about it a year ago.

The deportment for the year has been fair, with a general improvement in morals.

Respectfully submitted,

FRANCIS A. TALBOT.

PHYSICIAN'S REPORT.

To the Board of Managers:

LADIES:—During the year terminating with October, 1878, there have been two (2) deaths in the Reformatory—one in the Reformatory Department, the other in the Penal, and each from pulmonary consumption.

Mary E. Harding, sixteen years of age, died on the 6th of last November.

Mary Horton, aged seventy-four years, died on the 13th of April.

The number visited in their rooms or in hospital wards during the year was one hundred and thirty-six (136). Nearly one-half of these had some form of malarial fever. There were four cases of typhoid fever, and also four of pneumonia. Next in number to the cases of malarial fever were those having whooping cough, thirty-eight being affected.

You, the resident officers, and all the friends of the Institution, are to be congratulated, not only upon its successful management and increasing usefulness, but also upon its exemption from any serious epidemic.

Yours respectfully,

THEOPHILUS PARVIN.

PHYSICIAN'S REPORT.

To the Board of Managers.

During the year terminating with October, 1878, there have been two (2) deaths in the Infirmary—one in the Infirmary for the Female, the other in the Male, and each from pulmonary consumption.

Miss F. Harding, sixteen years of age, died on the 6th of last November.

Miss Horton, aged seventy-four years, died on the 18th of April. The number stated in their rooms or in hospital wards during the year was one hundred and thirty-six (136). Nearly one-half of these had some form of pulmonary fever. There were four cases of typhoid fever, and also four of pneumonia. Next in number to the cases of pulmonary fever were those having a chronic cough, thirty-eight being affected.

From the resident officers and all the friends of the Institution, it can be congratulated, not only upon its successful management and increasing usefulness, but also upon its exemption from any serious epidemic.

Yours respectfully,

THEOPHILUS PARVIN.

EIGHTH REPORT

OF THE

MANAGERS

OF THE

Indiana Reformatory Institution

FOR

WOMEN AND GIRLS,

FOR

THE YEAR ENDING OCTOBER 31, 1879.

TO THE GOVERNOR.

INDIANAPOLIS:

DOUGLASS & CARLON, PRINTERS AND BINDERS.

1879.

THE STATE OF INDIANA,
EXECUTIVE DEPARTMENT,
GOVERNOR'S OFFICE.

Received December 3, 1879, and referred to the Auditor of State for a verification of the financial statements. Returned with certificate (q. v.) appended to itemized statement of the Secretary. Examined by the Governor, and transmitted to the Secretary of State to be filed and preserved in his office and published as may be ordered by the Commissioners of the Public Printing.

SAMUEL R. DOWNEY, *Secretary.*

Filed in my office December 27, 1879.

J. G. SHANKLIN,
Secretary of State.

OFFICERS AND EMPLOYES.

BOARD OF MANAGERS,

MRS. RHODA M. COFFIN, President.
MRS. ELIZA C. HENDRICKS.
MRS. EMILY A. ROACHE.

SUPERINTENDENT,

SARAH J. SMITH.

SECRETARY,

ANNA DUNLOP.

RESIDENT OFFICERS,

ELMINA L. JOHNSON, Assistant Superintendent.
MARTHA M. PRAY, Literary Teacher.
MARTHA COFFIN, Governess.
FRANCES TALBERT, Housekeeper.
ELIZA L. MAULSBY, Sewing Teacher.
BETTIE GWINN, Laundry Teacher.
FLORENCE TAYLOR, Assistant Laundry Teacher.

STEWARD,

JAMES SMITH.

PHYSICIAN,

THEOPHILUS PARVIN, M. D.

EMPLOYES,

ROBERT GRAY, Engineer.
THOMAS BARNETT, Watchman.

MANAGERS' REPORT.

OFFICE OF THE INDIANA
REFORMATORY INSTITUTION FOR WOMEN AND GIRLS,
INDIANAPOLIS, IND., October 31, 1879.

To His Excellency, JAMES D. WILLIAMS,
Governor of Indiana:

SIR:—The Board of Managers of the Indiana Reformatory Institution for Women and Girls have the honor of submitting to your Excellency their Eighth Annual Report, appended to which they also submit the reports of the Superintendent and Physician, being for the fiscal year ending October 31, 1879:

NUMBER OF INMATES.

PENAL DEPARTMENT.

Number in the Institution at the time of last report .	45
Number received during the year	21
	— 66
Number discharged by expiration of sentence	23
Number pardoned by the President	1
Number pardoned by the Governor	0
Number deceased	1
Number escaped (retaken)	2
Number infants born	1
Number infants deceased	0
Number prisoners' children cared for	1
Number of convicts remaining October 31	41
Total number convicts	— 66

GIRLS' REFORMATORY DEPARTMENT.

Number of Girls at last report, October 31, 1878. . .	149	
Number received during the year.	52	
Number returned from ticket-of-leave.	5	
	—	206
Number discharged	28	
Number released on ticket-of-leave.	26	
Number escaped during the year.	6	
Number recaptured	5—	1
Number Insane sent to Hospital	1	
Number Idiots sent to Poor Farm	1	
Number deceased during the year	2	
Number Infants born	1	
Number Infants sent to Orphan Asylum	1	
Number remaining October 31, 1879	147	
	—	206

We may congratulate your Excellency and the State upon the present condition of the Institution, morally, religiously and financially.

The moral deportment was never better. The inmates, for the most part, render cheerful obedience to the rules and regulations of the Institution, and submit to the needed discipline quite as readily as could be expected of persons of their rank and capabilities.

In the Reformatory Department a small room has been set apart for the most refractory. Confinement in this for a few days, on lessened diet, is the extremity of punishment, and this has been rarely needed.

In the Penal Department a window has been placed in the dark cell, believing that separate confinement would be more beneficial and reformatory in its results than darkness. Our experience being that, on *women*, the dark cell has a hardening, rather than a reformatory tendency. Separate confinement, on bread and water, is the severest punishment that our Superintendent is allowed to inflict without an order from the Board. In but one instance has this order been called for.

The religious interest has been quite as well maintained as in previous years. Much care is used in their religious training and moral culture, with greater and more enduring results than in for-

mer years, our officers, from past experience and close observation, being better qualified to adapt the instruction and training to meet the needs of each case as developed.

By the report of the Superintendent, annexed, you will observe that the Educational Department in the Reformatory, as well as the Prison, has received due attention, and their advance has been quite encouraging; but, owing to reasons therein stated, the schools have been for a portion of the year suspended.

The finances of the institution, we believe, have been wisely and economically managed. The Legislature, having been informed of the actual expense of supporting the institution, made an appropriation of \$21,500 for the years 1879, 1880 and 1881. According to the law, the Superintendent, at the close of each month, furnishes to the Board an itemized statement of her receipts and expenditures. The bills of each month are carefully examined, and when approved are forwarded to the Board of Audit for their examination and sanction, accompanied by a draft on the treasury for the amount thereof.

In order to bring our expenses within the limits of the appropriation, we have been obliged to dispose of inmates of the Reformatory Department more rapidly than has proved beneficial to the girls or to the community from whence they came. Protestations and petitions have been received urging the retention of the girls for a longer period, that their reformation might be more thorough, but we can not respond favorably to the complaints without incurring indebtedness, which we do not propose to do. The expense of living is rapidly increasing, and we fear we shall not be able to maintain even so large a family the coming year, but we shall do the best we can for the interests of all.

A faithful and correct account of our expenditures will be found appended in the Superintendent's Report.

IMPROVEMENTS AND REPAIRS.

A substantial wooden fence has been constructed upon the north side of the main building for the purpose of cutting off pasture for our cows. A fire-escape stairway has been erected on the west end of the Girls' Reformatory, which, we think, increases the safety of the inmates in case of fire. We have also caused to be built, from the same fund, a chicken-house, hog-pen, an addition to the engine-

house, and the repairing of the boiler, a necessity, both for safety and economy.

In order to secure more thoroughly the safety of the prisoners, and avoid the evil effects which might arise from the inmates of the Reformatory coming in contact in any way or associating with the convicts, it was decided to erect two wash houses—one connected with the Penal Department, and the other with the Reformatory. An architect was employed to devise a plan and specifications, and his services secured for the oversight of the work; advertisements were made for sealed proposals, and the contract was awarded to the lowest bidder. The buildings are now in process of erection, and, we trust, will be completed and ready for occupancy by the first of the year.

The expenditures thus far made from the appropriation for repairs, improvements, etc., and the contracts awarded, but not completed, will appear from the following statement of contracts and expenditures:

CONTRACTS

FOR DISBURSEMENTS FROM SPECIAL APPROPRIATIONS.

Number.	CONTRACT.	NATURE OF CONTRACT.	Amount.	Remarks.
1	John A. D. Mueller.....	Fire-escape stairway, Reformatory Department.....	\$295 00	Paid.
2	Lewis Jones.....	Hog-pen and chicken-house.....	43 25	Paid.
3	William Petrie.....	Addition to engine-room.....	312 00	Paid.

SEWERAGE.

We have been unable to effect any arrangement in regard to the sewerage, owing to the refusal of the City Council to permit us to connect with any of the sewers of the city. From the location of our premises, there seems to be no other outlet for our drainage, except in connection with the city sewerage. By the report of the Superintendent, it will be observed that we have been actively and persistently at work with the City Council, and otherwise, but as yet without success, and remain to-day, as at first, surrounded with perplexities and annoyances. The funds appropriated by our last Legislature have been preserved intact, hoping for some new development whereby we may be able to secure a complete system of sewerage.

As required by section 31 of the act of May 13, 1869, the Board has estimated and determined "the actual expense per annum of clothing and subsisting an infant committed to the Reformatory Department of the Institution," and has fixed the amount thereof at \$146.

By reference to the Physician's Report, you will note that we have been visited with an epidemic, exceeding in severity anything before experienced, more or less affecting many of the girls, and several of our officers as well; but owing to the untiring devotion and watchful care of the physician and officers, the epidemic was arrested on the Reformatory side, none of the convicts being affected. We feel that we can not commend too highly our officers for their unwearied watching night and day with the sick and suffering.

The industries of the institution have been carefully looked after, and made as useful and productive as possible. The convicts are engaged in laundry work, knitting, general sewing, etc.; the girls in cane-seating chairs, laundry work, knitting, sewing, and obtaining a general knowledge of house-work. It is difficult to make their labor remunerative. We believe it more important and economical to train them in various kinds of housewifery. By this means we are able to dispose of them to better advantage, and with more hope of permanent reformation. The inmates are required to cultivate the grounds, attend to the horses, cows and hogs, keep the stable and other out-houses in order, and do all the work about

the Institution that can be done without skilled workmanship. This kind of work is very much enjoyed by them, and the privilege granted as a reward for good conduct.

The discipline is kind, but firm, and we believe that all of the officers are conscientiously engaged in their work, and seek to do it faithfully, looking to the good of the inmates and the best interests of the State.

Respectfully submitted,

RHODA M. COFFIN,
ELIZA C. HENDRICKS,
EMILY A. ROACHE.

SUPERINTENDENT'S REPORT.

REFORMATORY INSTITUTION,
INDIANAPOLIS, IND., November 1, 1879.

To the Board of Managers:

LADIES:—The record of another year can not be entered upon without gratitude to our Heavenly Father for permitting so rich a blessing to rest upon our labors.

As our experience becomes matured, we are better able to cope with the wayward and incorrigible—those who have no will except self-will—and are often surprised at the ready compliance to rules, judiciously planned and firmly executed, even in those who have long bid defiance to parental authority.

We find regular work the greatest help to reformation of character, and no work more beneficial than that which qualifies them for household duties. Many of them have the false idea that it is "degrading," that by following some trade they can dress better, and have more leisure, which too often proves their downfall. The laundry seems to be the most practical; homes have been more readily obtained by our out-going inmates when proficient in that department.

REFORMATORY DEPARTMENT.

Our "ticket-of-leave" system has proved invaluable, giving us greater power over the girls on their first entering service, and the knowledge that a failure will bring them back to the Institution makes them more anxious to succeed.

We sympathize with those who are willing to help forward the work we have begun, well knowing that it takes long patience ere the work proves satisfactory, but the thought that a poor, motherless girl is being helped to make an honest living is a rich reward even to those not called to labor in a public institution.

The Savior said, "In as much as ye did it unto the least, ye did unto Me."

Few come to us who have received even a common school education, proving the long admitted theory, "Ignorance is the mother of vice;" hence we strive to give to them as good an education as the time and their abilities will admit.

The teachers' report indicates as good progress as other schools of the same grade. They are greatly interested in good books. The evening reading is looked forward to with much pleasure, and we regret our inability to replenish our worn-out library, realizing that food for the mind and morals must go hand in hand with religion to effect reformation.

The death of Ellen Geryum, from consumption, had a marked effect on the family. Her life had been degraded, but her death was beautiful, proving the fullness of the Savior's power to save the fallen. Her gratitude for kindness shown was unbounded. Even the gift of a flower seemed to lighten the pathway to the valley of death, of which, as she entered, she said: "I do not feel afraid; I shall go to sleep and wake with Jesus and my mother."

The Physician's Report contains the account of the severe trial of typhoid fever. School and work for patrons was suspended, the officers devoting themselves night and day to the sick; and I can truly say that, had the sufferers been their own children, they could not have been better cared for; nor do I think a band of more willing, self-sacrificing helpers could have been found.

PENAL DEPARTMENT.

For some unexplained reason this department decreases in numbers. It may be from so small a portion of recommitments and the gratifying per cent. of the past year.

Many of those discharged are living in families and giving good satisfaction. Some have married and are doing well, and visit the home that rescued them with evident satisfaction, and their hearty "God bless you!" often relieves us of anxious fears.

We do not deny that our hearts have been saddened by the ingratitude of some—from whom we had hoped better things—who have again entered a life of sin. Yet, remembering that society has sifted and condemned the class for whom we labor, as unfit for liberty, though they sometimes fall, we have faith that the seed

sown will be watered by Him who left the grand lesson, and left it because He knew its need, "not only seven times, but seventy times seven."

The laundry continues the principal employment for those capable of "hard labor;" knitting and sewing for the older and less able.

As regular employment is an absolute necessity, we still work for very small remuneration. Their willingness to work is very gratifying. Seldom do we have to punish for idleness; punishment is reserved for outbreaks of uncontrolled temper, which often makes them dangerous until changed by the power of Grace.

One poor woman hung herself after being with us but three days, an opium-eater for many years.

To our friends, Wilson Morrow and Dr. Woods, with other Christian workers whom they have interested in the work, and who have so long, faithfully and earnestly preached the gospel of life and salvation, we most sincerely tender our thanks, and give them the assurance that their labors have been instrumental in saving many souls that will one day call them blessed.

By the assiduous attentions of our sympathizing physician, Dr. Parvin, especially during the epidemic, many that seemed for days at the point of death were restored, greatly increasing our confidence and obligation.

The question of sewerage remains a source of annoyance. Notwithstanding the Legislature granted the necessary funds for its construction, we have been unable to obtain permission of the City Council and Board of Aldermen, although they have been appealed to by the Board, by individuals, and our attorneys having the matter of the suit against us in charge. As ordered by the Board, the house-drainage was disconnected from the Laundry waste-water, and is now discharged into a cesspool, whence it is taken by contract, and only the waste from wash-water now empties into Crooked run. But this does not remedy the trouble, and the necessity for sewerage still remains.

The fire-escape stairway was built in the west end of the Reformatory Department, and, in the way of repairs, the engine-house was enlarged and boilers thoroughly overhauled and reset. A fence was built; the roof and all needful repairs kept up. Additions for wash, iron and dry rooms were undertaken, consisting, on each side, of two rooms, 18x57 feet, and 26x50 feet. The entire cost of this

improvement, to date, as per contracts entered into, is \$6,412.45. Of the appropriation for special purposes made by last Legislature, \$5,000, will be reserved for sewerage.

An inventory of all property belonging to the State has been taken. For this, and all financial and statistical items, I refer you to the Secretary's Report; also the Steward's for statement of cash received and disbursed by him. I need not repeat to you the great responsibility felt in expending the public moneys, in properly providing for the family, in the additional building and repairs; but your always ready counsel, sympathy and advice, the courtesy shown by the Governor and State officers, let me assure you, have been highly appreciated.

Yours respectfully,

SARAH J. SMITH,

Superintendent.

SECRETARY'S REPORT.

OFFICE OF INDIANA REFORMATORY INSTITUTION.
INDIANAPOLIS, November 1, 1879.

To the Superintendent of the
Indiana Reformatory Institution :

MRS. SARAH J. SMITH:—I herewith submit the financial and
statistical tables for the fiscal year ending October 31, 1879.

Very respectfully,
ANNA DUNLOP,
Secretary.

OFFICE OF AUDITOR OF STATE,

INDIANAPOLIS, December 6, 1879.

To His Excellency, JAMES D. WILLIAMS,

The Governor of State:

I have examined the foregoing itemized statement of disbursements of the Indiana Reformatory Institution for Women and Girls, and find that the amounts compared with the original bills, receipts and vouchers which have been placed on file in this office.

M. D. MANSON,

Auditor of State.

STEWARD'S REPORT.

*To the Superintendent
of the Indiana Reformatory Institution :*

Herewith I hand you statement of all moneys received and disbursed by me during the fiscal year ending October 31, 1879.

Receipts.

November 1, 1878, cash balance on hand, viz.:		
Working Fund.....	\$24 60	
Board United States Prisoners.....	46 00	
		\$60 60
March 28, 1879, received Board United States Prisoners.....	\$193 50	
		193 50
October 31, 1879, received in year, Working Fund, viz.:		
Laundry account.....	\$1,338 87	
Knitting account.....	667 30	
Gaiter account.....	6 00	
Sewing account.....	17 30	
Overall account.....	76 88	
Cane account.....	30 95	
		2,137 30
Total receipts.....		<u>\$2,391 40</u>

Expenditures.

May 17, 1879, paid into State Treasury Board United States Prisoners.....	\$239 50	
		\$239 50
October 31, 1879, paid out in year of Working Fund, viz.:		
Laundry account.....	\$1,621 36	
Knitting account.....	476 98	
Gaiter account.....	30	
Sewing account.....	1 25	
Overall account.....	10 80	
Cane account.....	35 91	
		2,146 60
Total amount paid out.....		\$2,386 10
October 31, 1879, balance on hand.....		5 30
Total.....		<u>\$2,391 40</u>

Shipment to A. J. Howard, Prison South, 1400 pairs socks, at 25 cents, and shipment to Soldiers' Orphans' Home, 100 pairs socks, at 22 cents, have not yet been settled for. Total due on knitting account, \$372 00.

JAMES SMITH, *Steward.*

Indianapolis, November 1, 1879.

PHYSICIAN'S REPORT.

INDIANAPOLIS, October 27, 1879.

*To the Managers of the Indiana Reformatory
Institution for Women and Girls:*

LADIES: There have been three deaths in the Reformatory during the official year.

On June 1, Margaret Conrad, a prisoner, committed suicide.

May 1, Ellen Gwynn died, after some months illness, of pulmonary consumption.

On the 21st of August, Stella Walker died of typhoid fever. These two were in the Reform Department.

An outbreak of typhoid fever is a part of the medical history of this year. On June 28 the first case of typhoid fever occurred; the subject, Mary Mansfield, having been here for three years, so that the disease could not have been brought by her from without. This patient recovered in about four weeks. The next attacked was Stella Walker, her sickness dating from the 12th of August. Hemorrhage from the stomach caused her death, after nine days confinement to bed. The next case was observed on the 31st of August, and during the two first weeks of September several others were taken sick. There were, in all, thirty-five cases of a continued fever, sixteen of them presenting unequivocal evidence of typhoid fever, and convalescence not commencing until from three to six weeks, while the nineteen others were not ill enough to be confined to the bed longer than a week or ten days. The probability is that most of these cases of illness depended upon a common cause, and that really many of those who were up so soon were what has been termed walking cases of typhoid fever.

What the cause of the general sickness was, admits of a plain,

4—R. W. G.

though only a partial solution. The fact of its being limited to the Reformatory Department proved that the cause was similarly restricted. That cause was in the water from the well, used especially by the children during the hot weather; for, in addition to the fact that none were sick but those who drank from it, a partial examination of the water by my friend, Professor Van Nuys, of the State University, one of the most accomplished chemists in Indiana or in the United States, has proved that it contained a large quantity of organic matter, and is not suitable for drinking. Professor Van Nuys is continuing his investigation, making a thorough chemical and microscopic examination of the water, and the results, I have reason to believe, will be of value to the Institution, to medical science, and to the public.

Undoubtedly it is not too much to assert that the water was the means of conveyance of the typhoid poison; but how the typhoid poison reached the water is a question to which, so far, I have not found even a probable solution.

I can not conclude my report without commending, gratefully and heartily, the kind and assiduous attentions of the officers of the Institution to the sick. So, too, similar attentions were given by the girls who acted as nurses, and to their unwearied fidelity and watchfulness and careful nursing, the willing work of willing hands, is to be attributed the very light mortality of typhoid fever in the Reformatory.

Yours respectfully,

THEOPHILUS PARVIN,

Physician.
